Profile

Computer Science co-op student at UPEI, minoring in Mathematics, with experience building full-stack and AI-assisted software in Python, TypeScript, JavaScript, and Java. Currently an AI-First Developer at PEI IT Alliance. Actively seeking Summer 2027 co-op opportunities.

Education

BSc Computer Science (Co-op), Minor in Mathematics - University of Prince Edward Island

Expected: Dec 2028

Coursework: Data Structures & Algorithms, OOP, Database Systems, Web Programming, Linear Algebra, Calculus, Differential Equations

Technical Skills

Languages: Python, TypeScript, JavaScript, Java, SQL, HTML, CSS

Frameworks & Tools: React, Next.js, Node.js, Express, FastAPI, PostgreSQL, REST APIs, Git, GitHub

AI & Data: OpenAI API, Vercel AI SDK, RAG, ChromaDB, BM25, Recharts, Zod

Projects

Personal Finance Dashboard - React / Node.js / Express / OpenAI API 2026

- Built and deployed a finance app with transaction CRUD, monthly reports, Recharts visualizations, OpenAI-generated analysis, and PostgreSQL storage on Neon.

GatherBite - Next.js / TypeScript / AI Agents 2026

- Built a group-ordering agent with separate planner and verifier models plus deterministic checks for dietary coverage, item validity, serving capacity, and budget.
- Added bounded retries and pre- and post-execution verification so missing evidence or a mismatched cart fails closed instead of reaching checkout.

Ultimate Tic-Tac-Toe - React / TypeScript 2026

- Built a mobile-first daily puzzle with deterministic UTC-based challenges, a minimax AI with alpha-beta pruning, local result persistence, and shareable game summaries.

DevProof - FastAPI / React / PostgreSQL / OpenAI 2026

- Built a GitHub analysis platform that grounds structured engineering-readiness and resume-verification reports in repository metadata, commit activity, documentation, and source code.

Work Experience

AI-First Developer - PEI IT Alliance, Charlottetown, PE Sep 2026 - Present

- Build and ship software with AI tooling throughout prototyping, implementation, code review, and product development.

Grocery Clerk - Atlantic Superstore, Charlottetown, PE May - Sep 2025

- Stocked and organized inventory, helped customers, and managed competing priorities in a high-volume store while studying full time.

Professional Development & Achievements

Rural Reach - Most Animal Welfare Impact Award Sept 2026

- Helped design a co-op model connecting farmers with travelling veterinarians, shared portable equipment, and maintenance support.
- Worked with computer science and veterinary teammates to test and pitch the service model; won the UPEI Animal Welfare Hackathon's Most Animal Welfare Impact award.

Wavemakers Innovation & Leadership Program - Graduate Feb 2026

- Completed team challenges in problem framing, solution design, documentation, and presentations to industry professionals.

Availability

Available full-time May - August 2027 - Charlottetown, PE - Authorized to work in Canada on a co-op work permit through UPEI
